MINES and MINING.

Thomas A. Lister returned Sunday from El Paso where he has spent several weeks and has secured the Waldo property shipping a large quantity of the ore to Los Angeles where tests will be made for concentrating the ore. If the results are favorable there is a strong possibility of the erection of a mill on the property.

Harvey Sacks of Clarkdale, Ariz. Bud Nell of Phoenix and Ed. Harsh of Wilcox, made a trip to Gold Hill this week looking over several mining properties in the district.

The Cline stamp-mill at Gold Hill has been in operation for the past two weeks treating ore from the Roosevelt mine. Cyanide experiments are under way on Gold Hill ore.

All records for shaft sinking are being broken at the Bonney Mine, the record to date being over five feet a day with timbering. Within the next 25 or 30 feet water is expected and a new station pump is on the ground for an emergency.

George H. Utter, owner of the Steeprock mines, was a visitor in Lordsburg Wednesday. Mr. Utter is at the present time figuring with various freighters for the hauling of ore from his mines to Duncan.

To Organize Band Tomorrow

Tomorrow (Saturday) evening at the home of J. E. Nygren the organization of the Lordsburg Band will be perfected and all who are interested in seeing the town have a band as well as those who can play an instrument are urged to attend. A prospective leader and teacher is expected to be present. The new band movement is one of merit and should receive the hearty support of every citizen.

MARRIED

Sam Williams, the well known porter of the Jones Barber Shop, and Miss Ollie Redix of El Paso, were married by Justice of the Peace Marshall Thursday morning. They will make their future home here. Sam has many friends who wish him and his bride every happiness.

The 640 Acre Homestead Bill

The Congressional Record of Feb. 18th, (No. 64) gives the Ferguson 640 Acre homestead bill, which is full, with amendments and committee reports. It was referred to the Senate Committee on Public Lands and reported back. It will doubtless be passed before the end of the session. It is interesting reading, however, and those interested in the bill should secure issue No. 64 of the Record.

Change in Southern Pacific Schedule

Announcement of important changes in the Southern Pacific railway's local time tables have been made. Most important of these is the change in trains 9 and 10. In the past, these trains have run only east of El Paso. Last week there was a conference of railroad officials in El Paso and it was decided to run No. 9 through to the coast, to take care of the great increased traffic in connection with the Panama-Pacific and Panama-California fairs at San Francisco and San Diego. Train No. 10 will start from San Francisco instead of being made in El Paso on the arrival of the Tucson train, as in the past.

There is no change in the time of train 102, the eastbound Sunset limited, but the westbound Sunset limited, No. 101, will reach Lordsburg at 2:14 a. m.

No. 9 will arrive in Lordsburg at 10:54 p. m. going West.

No. 10 is due at 5:10 p. m. going East and No. 7 will leave at 12:15 also Eastbound.

There are no changes in the running schedules of either No. 1 or No. 102.

The Sunset limited, trains numbers 101 and 102, will be made up of standard Pullmans and a dining car with a tourist car between New Orleans and San Francisco. No change in time for No. 102 has been announced. No. 101 will have a faster schedule. It will leave El Paso at 10:10 a. m.

The changes will go into effect on March 1st.

Cattlemen's Convention

The annual meeting of the southwestern New Mexico Cattle Growers' Association, will be held in Silver City on April 2nd and 3rd, at which time matters of interest to every stock raiser will be discussed. Many prominent men will be present to address the assembly and the men will be entertained by the Chamber of Commerce during their stay. Stock buyers from all parts of the West will be present at the convention. Efforts should be made by the local cattlemen and merchants to secure the next meeting in Lordsburg.

Sale Tomorrow

The sale of the Lordsburg Water, Ice and Electric Company will take place tomorrow (Saturday) afternoon in front of the postoffice. James Walsh, the District Attorney, is Special Master in the case.

NOTICE

The Cox Family desires to thank the people of Lordsburg for their kind patronage at the K. of P. hall on Monday evening and regret that there were not enough seats to accommodate the standers.

NEVER AGAIN

A New Mexico editor announced that he would try for one week to print the truth, and he is still in the hospital. He didn't get by the first day. The following item appeared in Monday's issue and now the boys are getting out the paper. This is what he said: "Married, Miss Sylvia Rhodes to Hamel Cannahan last Sunday evening at the church. The bride was an ordinary town girl who don't know any more about cooking than a rabbit, and never helped her mother three days in her life. She is not a beauty by any means and has a gait like a duck. The groom is an up-to-date has-been loafer, living off the old folks all his life, and don't amount to much. They will have a hard life while they live together."-Ex.

The men carry letters from the governors of each state through which they have passed.

CATTLE SHIPPED

The first cattle shipments of the year were made by Foster and Day, the Gila river cattlemen, from the local yards on Saturday and consisted of four carloads of old cows, purchased by W. D.
